RE: Suspension of Classroom Learning March 23rd -27th and April 6th - 9th , 2020

Dear Teulon Elementary Families,

First and foremost, I thank you for your patience while we were relying on the Superintendent's Department to provide all communication and messages to parents. We certainly have been in uncharted territory over the past week, however the Teulon community has been genuinely patient, understanding, and kind when calling and emailing. Our classrooms and hallways may have been a lot quieter this week, but they were full of collaboration and preparation for the time ahead.

Teachers have put together **at-home learning packages** for each student; these packages may include books, games, paper for journal writing, and suggestions. We realize that learning environments will be drastically different during this time away from school, therefore teachers have advised how to academically support your child at home and how to best contact them. Teachers are available to respond to questions, clarify assignments, or assist with comprehension as needed via email.

Packages are available for pick up at the school Friday, March 20th or during school hours March 23rd - 27th . **Report cards** are available for pick up with the prepared work packages. We will mail any remaining report cards directly.

Feelings of anxiety and uncertainty during the disruption of school are normal and to be expected. The best activities for families to engage in are those which are low-stress and joyful. Reading together, journaling, baking, playing board games, and going outdoors all are educational and encouraged.

Please do not hesitate to contact us if you have any questions or concerns.

Sincerely,

Ms. S. Hadfield
Principal
