June 1, 2020

Dear Teulon Elementary Families,

As you now have been informed of provincial and divisional plans, we would like to outline what our Teulon Elementary (school specific) plans are. Please take the time to read through our TES response carefully as re-entry to schools will proceed with caution and careful planning.

Reopening our schools for June will not be a return to in-class learning. Remote learning will shift to assessment and planning on Friday, June 12, 2020. After distance-learning has wrapped up on the 12th of June, there will be opportunities for students to have some very small group sessions, or one-on-one meetings with their teachers to support their learning, or receive scheduled counselling or clinical assessments. Student attendance at these in-school opportunities are at the parent and teacher's discretion and are completely optional. We wish to be mindful in ensuring the appointments are safe, practical, and necessary for student learning and well-being. We also reassure you that efforts and plans are underway to transition grade six students to Teulon Collegiate.

Report cards will be sent in the mail on June 26. As we have previously stated, student achievement is based on what teachers had assessed as of March 20 and any improved learning since then. Subject area comments will describe the learning that was offered during remote learning and indicate any additional instruction that may be needed in the fall. No child will be held back due to the global pandemic.

We sincerely thank you for your patience, understanding, and support over the last few months. The old saying of "the parent is the child's first teacher" couldn't be truer during this time. Your role has been central in making distance learning possible and we know the task wasn't an easy one.

In Health,
